

Transports of Delight

Gethin Lewis

I was very interested to see the picture of a Ford car transporter with a load of Imps in last month's *Impressions* (pages 28 & 29) which I gather Dave Dickinson brought to an Imp Club committee meeting.

I thought members might be interested in pictures of some of my collection of Rootes car

transporters.

Sorry, not all Imps! Some have other Rootes cars on board: Hillman Minxes, Sunbeam Rapiers, Singer Gazelles and Avengers on board!

Wonderful collection of Rootes cars and transporters. Dave Dickinson is mounting an exhibition at Babbacombe model village next year – anyone with model Imps (on or off transporters!) should get in touch if they are able to lend models for the display

Imps share a ride with a brace of Avengers. The Avenger had the dubious distinction of the only car badged throughout its lifetime as a Hillman, a Chrysler and a Talbot
