

Imp Club Spares Stock List and Prices – from September 2019

Compiled by R.J. Allan

I have been working with Imps for 42 years!

This is the list of spares stock held currently by The Imp Club Ltd. We buy new after market and “new old stock” spares from time to time at advantageous prices for sale to Club Members. We also stock re-manufactured parts, to which we apply our own quality control procedure. Please don’t forget that if the part you require is not listed here, then a member of the Specialist Panel may be able to locate it for you – see the last section in this Web site. You can contact me and I will suggest a supplier who may be able to help.

If members have un-wanted parts for Imps or variants, or are able to source any quantity of new spares which may benefit other members, please contact the Spares Coordinator. Some parts are now in short supply and your help is much appreciated.

For a printable (PDF) version of this list click here: [stock.pdf](#). We recommend you view the on-line version to save paper.

© **The Imp Club, 2005-19.** The Imp Club Spares Scheme is a service offered by Imp Club Members to other Members. The Imp Club Ltd. does not accept any liability for the suitability of spares provided or for the use to which they are put after sale or information supplied. However all information and advice is given in good faith and passed on from original dealers’ information or experience of Club members. Parts are bought as described and should be returned immediately if the customer is not satisfied (there may be a small handling charge to cover postal charges).

1 Imp Club Spares Stock List and Prices – from September 2019

Here is the list of spares held currently by The Imp Club Limited. We try to buy spares from time to time at advantageous prices for sale to Club Members. Please don't forget that if the part you require is not listed here, then a member of the Specialist Panel may be able to locate it for you. If we can't locate a new part we may offer second hand items available from another Club member.

Spares in this list are advertised at a cost which has been discounted to members for their own use. Since the Club is run on a voluntary basis for the mutual benefit of all members we have to ask that buyers declare their membership number. Cost of membership is, at the time of writing, £24.00 per annum for the UK (plus £3.00 once off joining fee). Please check Web site for latest amounts. For overseas prices please contact the membership secretaries.

When confirmation of order is received, this is to indicate that we have received your order. It does not indicate that a contract exists between us. We will indicate acceptance of your order, and hence a contract between us, when we send you an invoice. We have included this term to protect us in the case that a mistake has been made in pricing, we have inadvertently under priced goods, or we are no longer able to supply a particular product for some reason. In the case of a change of price, we will try to contact you first to ensure that the new price is acceptable.

For insurance and VAT reasons, we are un-able to sell to non-members or to dealers for re-sale. We are VAT registered (number GB 141 9391 11) and VAT may have been paid at source on all items marked “*”. We can provide a VAT receipt if required.

If members are able to source any quantity of new spares which may benefit other members, please contact the Spares Coordinator as below. Information given in this list includes part number, description, availability and price at date of publication subject to P&P. To order, please contact us or send a cheque payable to “The Imp Club”. We are also able to accept most credit cards, PayPal or bank transfer.

1.1 NEW – Recent Items added to Stock

- Stromberg cable bracket – see Carburettor
- Transaxle mounting bushes – see Transaxle
- Hand brake cables for Ginetta G15 – see Brakes
- Hand brake cables for MkIII cars – see Brakes

- Oil cooler brackets – see Engine
- Under dash parcel shelf – see under Body

Spares Coordinator

Bob Allan

Shadewood Farm,
283 Chester Road,
Grappenhall,

Warrington WA4 2QE, UK

Tel: +44 (0)1925 267084 (all day weekends, monday and wednesday or 6-8pm other days)
e-Mail: spares@theimpclub.co.uk

Note: Follow our Twitter feed here *@ImpClub_Spares*.

If we haven't got what you want – please ask, as stock is changing all the time. If we *really* haven't got it, we will find someone from the Spares Panel who may be able to help.

Please note that we are now stocking re-manufactured components from Malcolm Anderson, Ben Boulton and ourselves, which are included in this list. We also have new suppliers of brake components, radiators, gaskets, body seals, panels. Prices have been listed accordingly.

If you know of any new, un-used (new), Imp or Climax spares please contact the Imp Club via Bob Allan +44 (0)1925 267084 or any other Club official. Please note that some Imp based vehicles use Triumph Spitfire front suspension and steering components. We are also willing to stock these and will recommend suppliers.

If you are a supplier, have experience in sourcing equivalent components, re-conditioning or re-manufacturing, and are willing to help, we would be glad to hear from you.

The Rootes Archive Centre has a very extensive collection of original drawings and related information about the manufacture of Rootes cars, including Imps. To see the list of Imp drawings and original part numbers, go to the Web site <http://www.rootesarchivecentre.org.uk> and follow the link to "The Index".

1.2 Comments from Club Members

Frank Cheevers, Newbury, 8/2/2019: *What a great service, been using Imp Club Spares for more years than I care to remember and you've never let me down. Quote me on that!*

Bob Picton, Swindon, 20/11/2018: *We'd be lost without you or the service you provide. Much appreciated. Thanks!!!!!!*

Tristan Willbrandt, Bremen, 14/9/2018: *The parts arrived this afternoon, thank you very much for the fast packing. Supi, I can have the Imp run again this weekend, I appreciate your efforts, thanks again and wish you a happy weekend too.*

Alastair McPhee, Paisley, 29/8/2018: *P.S. very pleased with the water pump! Once I got it in, that is.*

Graham Hutt, Australia, 20/7/2018: *All fixed and the Imp is running ... Thanks again for your assistance could not have done it without your help.*

Ian Walters, Leeds, 16/5/2018: *I am very grateful to you (and the Imp Club) for your support in maintaining my G15 in good order. You echo my dedication in keeping a beautiful classic on the road.*

Dave Charles, Fife, 3/5/2018: *Thanks again for your always excellent service!*

Simon Benoy, Stevenage, 19/4/2018: *Went to Imp Ecosse in the Stiletto with the dizzy you supplied - it ran very well and starts really easily so very pleased.*

Tony Pagliaro, Scunthorpe, 18/4/2018: *You are a great person to know and I'm so grateful to you and your Club great work keep it up and I'll be in touch maybe meet up on the club meets etc.*

Graham Scott, Warwick, 28/3/2018: *just a quick note to confirm receipt and to say thanks for the brilliant service, I will be busy over the easter weekend.*

Paul Vroombout, NL, 14/11/2017: *The Chamois is on the road now after 33 years. The first time I went to the M.O.T. the car passed the inspection without any problems. I was very pleased... By the way, when we are driving the Chamois, most people are looking at it and then start smiling at us. So, when we feel down a little bit , we take a ride with the Chamois, and everthing is o.k. then.*

Jules Birch, High Wycombe, 12/5/2017 *I have found getting some Imp parts is quite tricky and you have been very helpful.*

Ian Harrison, Canada, 1/5/2017: *Thanks very much for all your hard work. Everything arrived in good shape. I especially appreciate you finding me the [...] That was above and beyond.*

Ruben Galea, Malta, 1/4/2017: *Incredible you guys at the Imp Club, so fast with the info I asked for in only 24 hrs. thanks regards. In my life I had many marques and I've been member in many clubs but I always said to my friends: NO ONE BEATS THE IMP CLUB. Soon you'll have me a member again, cause I sold my Imp three years ago and as if I left some one special.*

Andrew Laird, Edinburgh, 21/2/2017: *Many thanks for everything you have done for me. Really, much appreciated.*

Andrew Wild, Blackburn, 21/2/2017: *Parcel arrived yesterday, excellent service as always.*

Lars Hagermark, Sweden, 19/2/2017: *Thank you for an excellent service once more. Very happy.*

Gavin Miller, Redcar, 28/10/2016: *Firstly, thanks again for all of the supplies during my restoration. As you are possibly aware, the car won its class in the modified category at National, so you deserve some credit for the support you gave me.*

Mike Woodley, Bicester, 21/10/2016: *I must admit I was horrified at the thought of trying to get parts for this [MkI] rebuild but you guys at the Imp club have made it a breeze, the job is now quite fun, many thanks for your help with the last order.*

David Jones, Leicester, 1/10/2016: *Many thanks for the prompt delivery of ... Fantastic service, much appreciated.*

John Simister, Berkhamsted, 19/8/2016: *Thank you Bob, thats beyond perfect.*

John Simister, Berkhamsted, 17/8/2016: *Just to let you know that the ... seat diaphragm I bought from you [at National] works well. The existing holes in the rear cross tube of the Imp seat frame are in the right place, as are the rearmost of the three holes in the side tubes. So new holes are needed for the remaining two hooks on each side, and for the two hooks at the front. I drilled the front ones first, to get the right stretch on the diaphragm and thus the correct locations for the new side holes.*

Mike Pass, Dorset, 28/6/2016: *Thanks for your support and advice – and all the hard work on behalf of "the best club I have ever belonged to" – Cheers Mike.*

Ron Swaine, Winnipeg, Canada, 19/6/2016: *I want to thank you for the attentive service you always provide me, a very distant customer. I'll continue to come back to you, as I'm sure I'll need to from time to time. They [Ginetta G15] are fun cars, but charmingly eccentric (to put it mildly). By the way, I just joined the Imp Club because I know they'll provide great support.*

Philip Smith, Newport, 14/6/2016: *We're grateful for the effort and time that you put in. I'm sure many think it's easy, but it sure isn't.*

NEC Restoration Show, 5-6/3/2016: *Imp Club nominated for "best car club" and Myself nominated for "unsung hero". Thanks to all for your support.*

Roy Blunt, Newport, 18/1/2016: *The package arrived this morning – SUPERB SERVICE!*

Simon Benoy, Stevenage, 9/11/2015: *I knew you were a star, this just reinforces that belief! Top job...*

Gavin Miller, Ravenscar, 8/9/2015: *Arrived yesterday... Super quick!*

Graham Mills, London, 8/6/2015: *Parts received this morning - first class parts and service, thank you very much.*

Pete Crank, Telford, 30/3/2015: *Thanks for an excellent service... I shall use The Imp Club a lot more for spares – I honestly didn't realise what and how much you do!*

Melvyn Friend, London, 26/1/2015: *Brilliant service = top team!*

Mark Winspear, Whitby, 25/1/2015: *Just to let you know the parts arrived this morning. Exactly what I needed.*

Lee Moore, Australia, 20/10/2014: *It's great that you have such a comprehensive spares availability with such easy options.*

John Gillmeister, Australia, 14/9/2014: *I am so pleased with the service and your personal attention to detail ... by the way ... I lived in the UK-Europe for some 14 years, and loved it...*

Jon Hiscock, 27/8/2014; *Many thanks for your prompt service, it has been much appreciated. All I have to do now is to wait for some good weather!*

Ian Webb, 27/8/2014; *Got the spares OK, excellent service as always, thanks.*

Rosemary Hankis, Portugal, 6/8/2014; *This is to say how glad, and relieved, I was that you were able to help me... The Imp Club has, quite honestly, saved my life...*

Imp Club National 2014, special award for “Outstanding Contribution to The Imp Club”.

Robert Young, 6/4/2014, South Africa; *My consignment was delivered to Roy's home yesterday. Clearing the shipment through customs was un-eventful and duties levied were minimal. Clearly all paperwork was in order and I thank you for your contribution regarding the initiating documentation.*

Subsequently Roy has checked the shipment and confirmed that everything I ordered was correctly supplied and suffered no damage in its long transit...

I am most appreciative of the time and effort that you devoted to satisfying my large and varied order. Your purchase of the Tex door mirrors on our behalf, and arranging the purchase – and related local logistics – of the replacement dashboard and door cappings from the Chairman, involved you in more than the usual amount of “hassle”, for which I - and Roy - are really most grateful.

The upshot of your contribution, plus of course Roy's specialist know-how and quality workmanship, is that another Imp which might well have passed into rusty oblivion is being returned to service in a condition which may be stated without exaggeration to be better than new. For example, every screw fastening and numerous small steel fittings and brackets have been glass bead-blasted and electro-galvanised prior to (in some cases) epoxy painting. That's superior to the factory original. All threaded fasteners are assembled with Coppaslip anti-seize coating - again better than original. When complete in the next few months I'm sure that it will be one of the most carefully assembled and neatest Imps around.

The Club has been a great source of Imp specific know-how for me and together with the Club Forums, Impressions and your excellent Linwood book, has been inspirational and helpful. We will keep you posted of our Imp progress here at the southern tip of Africa. Thanks again for your excellent service and support.

Before that: I just assumed that everyone was happy.

2 Abbreviations used in Imp Club Spares List

PnP	postage and packing cost (see code below)
cw	complete with
bkt	bracket
OS or RH	offside or right hand side of car
NS or LH	nearside or left hand side of car
acc	accelerator
assy	assembly
bkt	bracket
brg	bearing
comp	higher grade part (no guarantee of winning!)
compt	compartment
con	connecting
diff	differential assembly
dizzy	distributor
gskt	gasket
h-lamp	headlamp
hsg	housing
incl	includes
recon	reconditioned
sport	twin carburettor engine as fitted to Sport and Stiletto
std	“standard” engine, i.e. MkI, MkII or MkIII but not Sport
w-pump	water pump
w-screen	windscreen

3 Conditions Applied

Imp Club Spares (part of The Imp Club Ltd.) provides replacement parts for Hillman Imps and related classic cars as listed in these pages. This service is provided for *bone fide* members of The Imp Club to whom these conditions apply. The service is by post or personal collection, we do not deliver. The list describes the goods available and follows the terminology used in Rootes parts publications. The items provided are new, re-conditioned, re-manufactured or new old stock (NOS) to original specification as far as we can ascertain (there is a separate quality control process). There are occasional “special offers” and “accessories”. Second hand items may be offered if this is the only solution available.

The prices shown in this list are accurate at the time of publication and valid for one month thereafter. Items marked with “*” may however vary in price at any time as we depend on our suppliers and their prices can change. We will quote an exact price to people making enquiries personally by letter, e-mail or by phone.

Direct transfer from UK banks is usually free, but overseas bank charges may vary. We can also accept most cards and PayPal. We are VAT registered and all prices quoted include VAT if applicable (marked with “*” in the list).

Delivery costs are simply the price of normal Royal Mail postage plus VAT, usually first class or Parcel Force if this is advantageous plus a small packing cost if required (we aim to use re-cycled packaging if we can), see below. We may choose to add compensation cover to high value orders (over £20) to protect against loss.

Any member of The Imp Club is entitled to use this service and to cancel or change their order prior to its dispatch. Once dispatched or delivered, provided the parts have not been fitted or otherwise “used”, we will refund any un-required parts returned at any time at the purchase price (if within one month) or at a price to be agreed at a later date. Postage and any other “one off” charges however cannot be re-funded.

New, re-conditioned or re-manufactured parts carry a like for like replacement warranty for 6 months from the date of purchase. Any problems or complaints must be notified to The Imp Club at its official business address within one month of ordering.

4 Postal Rates from April 2019

Please check – current Royal Mail rates as the list below may be out of date and we will always charge the current rate.

There is at present no handling charge. UK postage is charged at the following standard rates for 2nd class Royal Mail post or equivalent. Unfortunately, because we are VAT registered, we have to charge VAT on postage. For instance for a set of front brake shoes at £18.00+SPB you should send £21.60 which includes the Royal Mail cost for a parcel up to 2kg plus VAT. Normal 2nd class post is used for small items unless you specifically ask for faster delivery. Please include at least a first class stamp with your order or add on the price as calculated below.

Since the closure of a number of local post offices in 2017, we are using alternatives such as UK Mail for parcels over 2kg. Prices are quoted on an individual basis and include a compensation option. We also try to distribute large packages via Imp Express, i.e. the area centre network or at an AGM, committee meeting or National Weekend. For overseas postage we try to send separate parcels with a maximum weight of 2kg if this is cheaper. We will also do this in the UK if it is cheaper or easier packaging.

Royal Mail Letters (standard and L=large, UK only), e.g. if your order will fit in a thin Jiffy bag.

LA	100g	85p			
LLA	100g	1.30	LLB	250g	1.80
LLC	500g	2.40	LLD	750g	3.30

Standard Parcels (UK only) are now in two categories: (S=small) up to 45cm x35cm x8cm (or 16cm x16cm x16cm) and 8kg; (M=medium) up to 61cm x46cm x46cm and 20kg. Parcel Force Worldwide services are available up to 1.5m x3m x3m and 30kg, e.g. Parcel Force 48h.

A special deal applies to small parcels up to 2kg – second class postage is only £2.90 +VAT. We will use this service where possible.

SPA	1kg	3.60	SPB	2kg	3.60
MPA	1kg	6.20	MPB	2kg	6.20
48hA	2kg	12.12	48hB	5kg	13.14
48hC	10kg	16.62	48hD	15kg	23.40

We will usually send items over 2kg by Parcel Force 48h which includes VAT and compensation for £100. Items over 2kg or parcels to overseas destinations will go by Parcel Force except by special arrangement. We are also now using UK Mail for large parcels and may choose to use additional compensation options with these services if your goods are valuable. We use a delivery broker with compensation for large orders, particularly overseas, as this gives us the best available rates.

Very large or fragile items such as panels, windscreens and radiators must be collected from the Spares Coordinator.

5 Certificates, Technical Books, Workshop Consumables and Tools

From time to time technical books and tools become available when we buy in spares. We have listed the current stock with a guide to condition: New, A, B, C where A, B and C indicate a second hand item in condition ranging from “nearly as new” to “damaged but complete”. If you wish to acquire or pass on a particular technical book or tool please contact us. All new books are available via Regalia.

Heritage Certificates

It was announced by the Government in the Spring 2014 budget that from April there was to be a rolling exemption on VED, that means historic vehicles over a certain age will be tax free. You still need to get a tax disc, but it won't cost anything if you can prove that your Imp was build before January 1974. Next year it will be Jan'1975 and so on.

The Federation for British Historic Vehicle Clubs (FBHVC) issued a press release on this which was re-produced in the May issue of Impressions. You will need evidence of the date of manufacture of your Imp if there is any possible doubt about it.

Working with the Rootes Archive Centre Trust, the Imp Club is able to issue Heritage Certificates for your Imp or any other Rootes vehicle. We are registered with DVLA V765 Scheme. We will provide an individual Certificate and Car Details Sheet. These includes precise dating information plus a variety of other information authenticating the vehicle as it left the production line. It is based on a combination of factory information and other sources. A valuable addition for a cherished vehicle and essential if you are trying to confirm its true identity. We can even print an extra information sheet with history and photographs provided by you.

You can see a sample and download an order form from the Rootes Archive Centre Web site: <http://www.rootesarchivecentre.org.uk>. Just click on the link to “Certificates”.

Prices: Heritage Certificate including Car Details Sheet: £45.00 including PnP; Extra sheet: £1.20 = total £46.20; Overseas: please add extra £4.00 to cover postage etc.

Books

Price depends on condition as shown in the table below. Please ask for availability as stock changes rapidly (parentheses indicate available stock at time of writing). Note: WSM141 is the later Imp

Workshop Manual. New parts lists are currently not available. We will try to provide the book most appropriate for your car.

Author	Title (edition)	Price for condition:			
		New	A	B	C

Tools

Some tools are available from time to time with condition and price as indicated below (number in stock in parentheses). Original Churchill workshop tools are extremely rare and understandably fetch a high price. Unfortunately RG355 is currently *not* available, so don't ask! There was a description

of how to make RG355 by Alan Turner in Impressions Apr'1993, so you might be able to get a back issue and try it yourself.

Manufacture	Description	Price for condition (UK pounds):				
		NOS	A	B	R *	H *
9221600	Sparking plug spanner	15.00 (1)				
7103171	Jack with handle		15.00			
7103652	Handle only					
72270728	Tool bag	10.00				
RG188/3	rear hub securing plate from RG188C, D or E		25.00			
RG284	track rod taper knuckle remover		15.00			
RG353	timing chain support	40.00	15.00	10.00	16.00 (14)	
RG354	timing chain tensioner retainer	30.00	25.00 ()	15.00		
RG355	cylinder head bolt wrench	80.00 ()	70.00			
RG357	valve guide remover-replacer					
RG358	valve guide reamer 9/32"					
RG359	rear engine mtg bush remover- replacer					
RG359 ?	diff brg replacer (use with RG363 and RG4221B-8)					
RG363	diff brg (small) replacer adapter (use with RG359)					
56	diff brg remover

* Items R are replica made by The Imp Club. Items H are Home Made (probably by former Club members) or after market.

RG374 is described: *an immediate engagement of the Clutch Shaft Spigot in the Crankshaft is achieved using RG374 when re-assembling the Engine to the Transmission. By using two diameters for location the Tool centralises the Clutch Driven Plate in relation to the Flywheel. The Tool can also be used in Hydraulic application to remove the Crankshaft Spigot Bush.*

Oils

The Association of Rootes Car Clubs, which include The Imp Club, has secured a 10% discount deal with Witham Oil & Paint Ltd. for supply of oil from their Qualube range and other supplies to Club members. Their Web site is here: <https://www.withamgroup.co.uk>. Products of specific interest for use with Imps include the following.

2050: Classic 20w/50 oil – engine oil, 20w/60 also available;

EP80: oil – gear oil for transaxle or steering rack;

BF: Brake fluid – DOT 4;

BA: anti-freeze – universal blue type;

LG400: grease – lithium multi-purpose;

WSG: workshop granules –

Please ask and I can provide a scanned order form, or you can find it on-line here: [ARCC_Oil_Purchase_Order_Form.pdf](#) (last updated Apr'2018).

You will find that these products are significantly cheaper than others in high street shops.

Workshop Supplies

We are working with Peter Lewis, a Club member who runs Chemsol UK. He is able to provide a range of environmentally friendly chemicals for work on classic cars. We have so far identified the following which might be useful. Please let us know what you think and what quantities might be of interest. Also let us know if there is anything else required.

Rust Converter – turns light rust black and ready to paint. £11.50+VAT per 1 litre.

CI Rust Preventer (water based) – protects bare metal for some time, e.g. after blasting or sanding – £12.00+VAT per 5 litre ready to use. It is also available in concentrated form which can be diluted with water at a rate of 5:1 or more, £11.00+VAT per 1 litre.

CS52 Penetrating Rust Preventer and de-water – to be used as a releasing agent or oil film or sprayed on electrical components to maybe make them work – £15.00+VAT per 5 litre or £4.00+VAT per 1 litre.

De-Greaser (water based) – make your engine, transaxle or workshop spotless; substitute for elbow grease? Price TBC.

Trigger spray bottle – £2.00+VAT

6 Engine and Auxiliaries including Cooling

New: Engine oil special deal, see Section 5.

Note: We have a range of re-conditioned radiators in stock and also re-con water pumps. Rads and pumps are available on an exchange basis – there is a surcharge re-fundable on return and may be additional postal cost. Unfortunately the quality of some of the old ones returned means that there has been a price increase. Please try to return good old ones!

All gaskets and hoses are available newly made. Newly made pistons, rings and bearings are now available in certain sizes.

We have been informed that there is going to be a large increase in the cost of valves soon if they have to be re-manufactured. I currently have some NOS so please ask.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately and a re-fund or replacement can be arranged.

Competition or Fast Road

7 Carburettor and Exhaust

Note: Many members have reported problems with un-leaded fuel. We have O-rings, tubes and hoses in IMPROVED materials to counteract this.

The problem is that ethanol is being added to make it so called "environmentally friendly". This can corrode many metals, destroy your fuel tank lining and de-grade rubber based elastomers and some plastics on all old cars. The FBHVC are researching into this and we will do our best to supply components using the most suitable materials available as recommended by them.

WARNING: If you leave your car standing and the fuel evaporates, it will leave a green coloured resin inside your carb. This is extremely difficult to remove!

We have a number of Stromberg and Solex kits in stock fitted with Viton O-rings and tubes. We also have a stock of the fuel transfer tubes for Solex. O-rings and diaphragms for Stromberg also available separately and we are looking into fuel pump components.

Cables of various kinds have been re-manufactured, and available in lengths either standard or to

order for special applications.

We often order items in bulk, so that we can pass them on to Club members at a good price.

Solex

7080232	pump actuating rod and lever	4	6.00
7080265	lever-stop throttle	5	3.00

8 Transaxle and Gearchange

New: Transaxle oil special deal, see here 5.

Note: Original clutch covers are getting increasingly hard to get. If you have any used but reasonably good units please keep them for re-conditioning. Laycock diaphragm type are now only available from time to time. We can at present supply Laycock diaphragm and Borg and Beck spring and lever clutches *note, the ones we supply are the correct ones for the Imp.* Alternative manufacture such as QH and LUK are also available from time to time, please ask.

Please keep all clutch driven plates for re-conditioning.

Release bearings, all seals and O-rings including spigot bushes are currently available.

Beware: I'm not sure why some Internet sellers try to make you buy the wrong type of clutch slave cylinder. Check it out! We have the correct ones.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

** When fitting the GLB1 nylotron ball cup, you don't need to replace the metal collar. Slide the ball cup over the gear stick to the required position and drill through so that you can push the pin through equal both sides. Then replace in the assembly with the spring and cap on top. Finally rivet back together.

9 Suspension and Steering

New: Steering rack oil special deal, see here 5.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

Unfortunately there are very few front shock absorbers available. We have rear shocks plus occasional front ones. We will maintain current prices as long as possible. Special requirements can be catered for including re-conditioning and springs. Alternative suppliers include SPAX, AVO, GAZ, ProTech, etc.

Bolt packs for suspension (16x bolts, nuts and washers all in BZP) does front and rear now available at £28.00 plus PnP. We can also supply them in sets for front only (10x bolts, £18.00) or rear (6x bolts, £10.00). A complete car set including bolts, screws and washers for suspension including the brackets to floor is £44.00. These are "S" grade tensile the same as the original spec. All bolts also available separately, please ask. Some stainless bolts also to order at approx 2x price, please ask.

All wheel bearings and other bearings are currently available. We can still occasionally obtain the original spec rear wheel bearings, but they are quite expensive, please ask for a quote as they may have to be paid for at time of order.

We can overhaul steering racks to order on an exchange and return basis.

10 Brakes and Controls

Note: Most service brake parts are available new to order. Unfortunately repair kits went up a lot in 2017 and the Girling ones don't fit the new (correct size) front wheel cylinders. Master cylinders are available in a range of sizes for servo or non-servo cars or trikes. We only stock the best types.

New standard and Goodridge style hoses are available for all requirements, but prices have increased slightly. We source items in bulk, so that we can pass savings on to Club members at near to cost price. We also now stock all brake pipes in salt resistant Cunifer 10 material (10:90 nickel:copper). Clutch and fuel pipes are available in the same material. These can be made up to length for special orders.

We can source front disc conversions which are a good modern alternative to the servo. They are

based on Ford Fiesta or KA components. You will need a 0.7" master cylinder which we have in stock and you need to obtain your own re-conditioned calipers.

Note: We re-condition items such as brake shoes and provide a variety of friction materials, please ask. Re-conditioned items carry a replacement warranty for six months from time of sale.

Because of shortage of good Imp rear shoes, we may supply sets which are a mix of Imp and Allegro shoes. The Imp shoes with the rectangular slot must be used for the hand brake transfer levers, the Allegro shoes have a larger irregular shaped slot. **Beware** some Internet sellers do not know the difference!

Servo or Disc Brakes

11 Electrical Components

Note: New parts being produced include: a variety of H.T. leads to order, front light lenses, rear Lucas lamps. Most other electrical service components for both standard road and competition cars can be obtained new to order. Prices may vary. Beware of cheap imports sold on the Internet!

Foam lamp gaskets are in stock – a lot cheaper than those on the Internet because we own the original tooling. They are available individually or in car sets at £15.00 for the early L717 front side-indicator lamp assy or the later L792 assy and include the 4x inner gaskets for L691-2 lamps, less if you've got the Wipac push on rear lamps as you will only need the front gaskets. L691-2 rubber backing also available.

Stock of original Lucas front lamps and lenses is now low.

----------------------------------	---	-------

14 Body Fittings

We have sourced modern laminated and heated glass windscreens and are currently investigating re-manufacture of rear screens (hatch).

Heated screens carry a warranty of 90 days on the element. Water is the biggest problem for heated glass. It is very important that no water can get to the edge of the glass or the element will start to fail very quickly. All rubber fit screens must be sealed with the correct grade of non-setting windscreen rubber fit sealer, such as INDASA. If this is not done the warranty will be void. For wiring diagram

click here.

Screens can be posted within UK at an extra cost of around £44.00. For shipping overseas please ask. We may refer you to our supplier.

Door cards and rear trim panels are now available in a plastic material that will not warp when it gets damp. You can cover them with your favourite vinyl or buy the kits from Lesley Smith (see below). Rear door pocket base in same material too.

Hand brake rubber grommet, 7" headlamp seals, engine lid buffers, fan cowl gaiter and clip, bonnet stay rubber clip and mirror stem buffers are available again. More 1/4 vent seals in stock now. Some rubber items are still on the list for re-manufacture, including many of the smaller items.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

We are now able to supply a full range of grommets and bungs to fit the Imp body shell. You will need to tell us the size and qty required as cars may vary. We buy trim clips, o-rings, grommets and similar items in bulk, so that we can offer them to Club members at near to cost price. We can add to the range for special requirements, please tell us what you need including the size. The types available are as follows.

open: standard rubber grommet, e.g. for brake pipes and cables;

blank: rubber to fill holes, can be perforated for pipes, cables etc.

PVC: PVC blanking, e.g. for floor bungs;

wiring: Lucas soft rubber type for harness, hoses etc.

sleeve: special, e.g. for wiper rack tube through bulkhead, may be hard to obtain.

Grommets etc.

Coloured carpets 10% extra unless priced separately. LHD also available.

16 The Specialist Panel

In addition to our own spares business, the Imp Club Ltd. aims to offer a wide range of advice on spares and services to owners of Hillman Imps and derivatives. In order to do this we have created a *Specialist Panel* of professionals who have long experience of working with Imps or supplying parts for them.

Information on what is available from the Panel will be reviewed from time to time, as will the accumulated information on alternative parts from other cars and parts re-manufactured or requirements for sourcing. If you know of anyone offering particular services, or yourself wish to feature in this list, please contact the Spares Coordinator.

The following information is given for each panel member.

Title

Name:	Name
Contact:	Postal address (snail Mail)
Telephone:	Other contact (Tel, Fax, e-Mail, Mobile, Web, ESP, Pidgeon, etc.)
Description:	General area of specialisation, e.g. body panels, engines, gearboxes, stuff, competition work, etc.
Hours:	Hours during which willing to receive calls. Visit by appointment only (obviously!)

Alpine West Midlands

 Description: We offer over 500 separate spares for the Sunbeam Alpine and Tiger sports cars, in which we specialise, together with a unique range of repair panels for Rapier, Minx, Gazelle, Superminx, Vogue, Sceptre and Fastback models. Our range of spares now covers most of the classic Rootes marque, now including Imp and Avenger (please call us), and an On line shopping facility for the purchase of our more popular items, especially from our comprehensive range of Sunbeam Alpine and Tiger parts and spares, is available now and is being expanded. Our on line shopping facility uses SSL technology – a standard means of sending encrypted data across the Internet. We can offer a Lead Free Conversion service. A wide selection of Second Hand Spares is also available.

Telephone: Tel: 0116 216 9920; e-Mail: sales@auto-trim.co.uk; Web: <http://www.auto-trim.co.uk>

Description: This family owned business established 1968 has been trading for nearly half a century specialising not only in car trimming and renovation of car interiors but also in marine, bus and coach, light aircraft, motor sport and many other miscellaneous fields. We service the trade as well as the private sector, and we have an excellent reputation amongst all. Our aim is to keep giving a very high quality of service with that professional approach our customers have come to expect. We are ever expanding and have in recent years been appointed main distributorship for Recaro and their UK repair centre, we also distribute many other industrial seats. This not only makes us a trim centre but also a major automotive seat supplier to the UK and abroad, the supply of seats is handled through our seating division "Capital Seating" which was formed in 2001 to handle the ever increasing demand on our resources. All our hard work was rewarded in 2006 by being the winners of the Coutts Banking "Best Family Business" northern region.
